|----------------------------------|----------------|--------------|------------------|---------------|
| <b>NDC</b>                       | <b>NDC Mod</b> | <b>HCPCS</b> | <b>HCPCS Mod</b> | <b>NEW CF</b> |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |
|                                  |                |              |                  |               |

Notice: A conversion factor change occurs only when an NDC-HCPCS relationship remains static and the CF changes.
